

Trail Scout Remote Setup

1. Move toggle switch to **ON** position, then move toggle switch to **SETUP** position. The LCD will display

Set Date
01/01/04

2. Press and hold the **UP** and **DOWN** button at the same time for 2 seconds, then let go. The LCD will display

LEARN

3. **Point remote at Trail Scout**, press and hold down the **SNAP** button until red light on the remote goes out, then release. **Repeat this 3 more times.**

4. Wait 15 seconds, press and hold down the **SEARCH** button until red light on the remote goes out, then release.

5. Press and hold down the **SNAP** button until red light goes out on the remote, then release. This will complete remote setup.

6. Turn unit **OFF**, then back **ON**. Wait 1 minute and test the remote.

7. If remote does not work, please repeat steps 1 thru 6.
