CONGRATULATIONS,
you have one of the lightest and versatile spotting/field
telescopes in the world. the Trophy has a 50mm. diameter
objective lens and has magnesium fluoride coated optics
for an exceptionally clear and crisp view. the amber
coating helps improve contrast in low light.

FOCUSBING:
The focusing system is easy and accurate. Rotate the
Focusing Knob until the image seems to be in sharp, crisp
focus. This is all there is to it. There is no need to
overshoot or hunt for the correct focus. Once the image
appears sharp, stop focusing – the image is in the best
focus with minimum eye strain.

SIGHTING:
Your Trophy spotting scope is equipped with a Sighting
Line above the eyepiece. Simply aim the line at the object
and look through the eyepiece – there it is!

ZOOM EYEPIECE
The Trophy comes with a zoom eyepiece which gives a
magnification range of 20 to 50 power. To change
Magnification, grasp and rotate the “rubber” Knurled
Ring in the middle of the eyepiece. The magnification will
be indicated on the scale next to the index dot. It may be
necessary to refocus the telescope after changing
magnification.

TRIPOD ATTACHMENT:
To attach your Trophy spotting scope to the tripod, simply
tighten the hand attachment screw on the tripod into the
integral Tripod Mount hole on the base of the scope.

MAINTENANCE:
Your Trophy does not require any maintenance beyond
the occasional cleaning. With a cloth, brush off the
outside of the telescope to remove any dirt or dust. You
can use a mild household cleaner – sparingly – to remove
any stubborn dirt. Keep the optics clean; do now allow
dust or water to stay on the glass. We recommend using
a lens cleaner kit for camera lens to clean the outside of
the objective lens, the eyepiece window, or the eyepiece
lenses. Follow the directions with the kit.

Do not disassemble the telescope. Unauthorized
disassembly not only voids the warranty but may cause
damage from the lack of special tools and techniques.
Your spotting scope is warranted to be free of defects in materials and workmanship for the lifetime of the original owner. The Lifetime Limited Warranty is an expression of our confidence in the materials and mechanical workmanship of our products and is your assurance of a lifetime of dependable service. In the event of a defect under this warranty, we will, at our option, repair or replace the product, provided that you return the product postage prepaid. This warranty does not cover damages caused by misuse or improper handling, installation or maintenance of the product.

Any return made under this warranty must be accompanied by the items listed below:

1) A check in the amount of $10.00 to cover the cost of handling
2) Name and address for product return
3) An explanation of the defect
4) Product should be well packed in a sturdy outside shipping carton to prevent damage in transit and return postage prepaid to the address listed below:

IN U.S.A. Send To:
Bushnell Performance Optics
8500 Marshall Drive
Lenexa, Kansas 66214
